SUMMARY

Game and systems designer studying for a Master of Design at the National Institute of Design (NID), focused on game and interaction design. Designed and built 10 games across web, Android, PC and tabletop, from game jams to a public exhibition, prototyping in Unity and C#. Brings nearly three years as a Business Analyst at Thoughtworks: turning stakeholder needs into requirements, prioritising backlogs and coordinating releases across international teams.

SKILLS

Game Design:	Systems Design, Level Design, Player Onboarding, Game Economy, UI/UX Design, Live Ops and Event Design, Playtesting and Iteration
Tools and Programming:	Unity, C#, HTML, CSS, JavaScript, Jira
Product and Delivery:	Requirements Gathering, User Stories, Backlog Prioritisation, Release Planning, Stakeholder Management, User Research

GAME DESIGN PROJECTS

Orbital Defense 2 | 2D Tower Defense | Unity, C# | Web
Designed a tower defense game with satellites that move along orbit rings and a currency economy for building and boosting defenses across 12 levels; sequel to my seven-day game jam entry.

Paperwala | Route-Drawing Puzzle | Unity, C# | Web, Android — Dainik Bhaskar Game Lab 2026
Designed a one-gesture mobile puzzle about a 6 AM newspaper route: 12 levels built in teach, practise and test cycles, playable in English and Hindi.

Vines & Vipers | Online Multiplayer Board Game | Unity, C# | Android — NID
Designed a text-free take on Snakes & Ladders for up to four online players, shaped by field research in three places across India so players who cannot read English can still play.

Tiffin Wiffin | Applied Game | Unity, C# | Team of Two — Science Gallery Bangalore, Jan 2026
Co-designed and programmed an exhibition game about baby nutrition with two-minute rounds for walk-up visitors, teaching that calories are not the same as nutrition.

Treasure Scan | Live-Ops Event Concept for Coin Master | Team of Three — NID
Wrote the event one-pager and UI spec and built a playable HTML prototype for an event targeting a 37.5% increase in session length for veteran players.

EXPERIENCE

Consultant – Business Analyst, Thoughtworks — Jan 2021 – Sep 2023 | Remote

- **Lenovo ThinkReality A3 (AR):** Managed the release cycle for 2 releases across 3 teams in India, the USA, China and Brazil; supported the move of A3 Home from a single window to three windows.
- **Yubi (formerly CredAvenue):** Started development of a mobile app for buying bonds; ran interviews, focus groups and surveys to finalise requirements, formed the team and prepared the release schedule.
- **Health Promotion Board, Singapore:** Owned requirements for the Events section of the H365 app; worked with stakeholders to gather requirements, write user stories and manage delivery.

Management Intern, Ameex Technologies — Apr 2019 – Jul 2019 | Chennai

- Coordinated with a team to develop AI products and pitched product ideas to management.
